Revocable permits for use in structures at [redacted]

25X1A

25X1A

1. Permits [redacted] from the Department [redacted] for the use of structures at [redacted] are returned herewith.

2. We seem to be fairly much at their mercy in this matter and there is no objection to the permits in this form, although the wording previously submitted would have been preferable. There will apparently be no difficulty in obtaining permission from the [redacted] to waive the requirement for prior permission regarding structures erected before 15 March 1950. However, it would appear advisable to have some direct informal consent from the [redacted] who have final control over the [redacted]. Confirmation that notice will be waived should also be obtained from the General Services Administration since they are acting jointly with the [redacted].

3. Subject to the above comments, the permits appear to be acceptable in their present form.
